

MULTIPURPOSE VEHICLE

New era for a EV

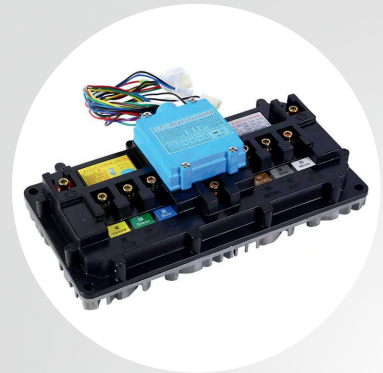

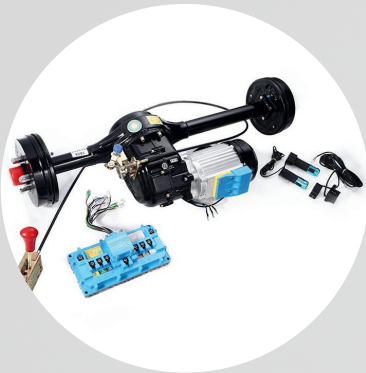

- ✓ **70-80km in Single Charge**
- ✓ **Loading Capacity 1.5 Ton**
- ✓ **IP67 Water Proof (PMSM 6 Phase Motor)**
- ✓ **26 Seater School Vehicle**

SPECIFICATIONS

Length	3390 mm
Width	1405 mm
Height	1865 mm
Base	1940 mm
Ground Clearance	155 mm
Minimum Turning Radius	680 cm
Motor Power	3kW PMSM 6 phase efficiency 97%
Cart Size	87"x52" sheet 0.9
Tire Size	5.00.12/4.50.12
Loading Capacity	Up to 1500 Kg / 26 Seater School
Charger	Fast On board charger ip67 level
Cruising Speed	35-55 km
Power Steering	(optional)
Power Booster	Gear available

PARTS

Battery

Our battery sets the standard for reliability and longevity in electric rickshaw technology. Utilizing lithium-ion phosphate LiFePO_4 technology and equipped with a smart Battery Management System (BMS), our battery ensures optimal performance and safety, making it the ideal power solution for electric rickshaws in Pakistan

Option 1

Lithium Ion Phosphate 72 Volts 100 AH

Range : 70-80km on single charge

Option 2

Gel Verla Dry Battery 72 Volts 100 AH (12 V 100 AH 6 Batteries)

Range : 70-80km on single charge

Charger

Introducing our cutting-edge on-board charger, setting a new standard for electric vehicle charging. With our 1P67 level fast charger, EV owners can enjoy lightning-fast charging times and unparalleled convenience on the go. Say hello to the future of EV charging with our innovative solution!

Option 1

Lithium Ion Phosphate 72 Volts 25 A

Charging time : 2.5 Hours

Option 2

**Gel Verla Dry Battery 72 Volts 100 AH (12 V 100 AH
6 Batteries)**

Charge time : 3-4 Hours
